

AV REQUIREMENTS

IF YOU REALLY WANT SOMETHING,
MAKE IT HAPPEN.

BE IMPATIENT- BE PROACTIVE-
BE UNSTOPPABLE

ANNETTE LACKOVIC

Computer: Annette uses a Macbook and has her own data adapter connection. **Microphone:** Because Annette is high energy, her microphone preference is a head set or lapel microphone. For full day training presentations normally a hand held microphone is also required in case of audience participation.

Date Projector: Please ensure data projector is Mac friendly and has strong definition for images and video footage.

Sound system: Many of Annette's Presentations require sound, the sound will run out of her laptop that needs to be connected to sound system.

Flip Chart: Paper flip chart and two thick textures (black/blue)

Hydration: Please ensure there is a glass of water on stage in easy reach. **Lectern:** No lectern is ever required for Annette's presentation, she is way to energetic to stand in the one spot!
